A Tudor Christmas Alison Weir,Siobhan Clarke,2018-10-04 Christmas in Tudor times was a period of feasting, revelry and merrymaking ‘to drive the cold winter away’. A carnival atmosphere presided at court, with a twelve-day-long festival of entertainments, pageants, theatre productions and ‘disguisings’, when even the king and queen dressed up in costume to fool their courtiers. Throughout the festive season, all ranks of subjects were freed for a short time from everyday cares to

indulge in eating, drinking, dancing and game-playing. We might assume that our modern Christmas owes much to the Victorians. In fact, as Alison Weir and Siobhan Clarke reveal in this fascinating book, many of our favourite Christmas traditions date back much further. Carol-singing, present-giving, mulled wine and mince pies were all just as popular in Tudor times, and even Father Christmas and roast turkey dinners have their origins in this period. The festival was so beloved by English people that Christmas traditions survived remarkably unchanged in this age of tumultuous religious upheaval. Beautifully illustrated with original line drawings throughout, this enchanting compendium will fascinate anyone with an interest in Tudor life – and anyone who loves Christmas.

Spanish Sentence Builders - A Lexicogrammar Approach Dylan Viñales, Gianfranco Conti, 2021-05 This is the newly updated SECOND EDITION! This version has been fully re-checked for accuracy and re-formatted to make it even more user-friendly, following feedback after a full year of classroom use by thousands of teachers across the world. Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout. Each unit includes: 1) A sentence builder modelling the target constructions; 2) A set of vocabulary building activities; 3) A set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; 4) A set of retrieval-practice translation tasks; 5) A set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.
