SOA Policy, Service Gateway, and SLA Management Robert Barron,Joel Gauci,Jayanthi Krishnamurthy,Robert Laird,David Shute,Stephen Willoughby,Peter Xu,IBM Redbooks,2013-04-01 This IBM® Redbooks® publication teaches you how to automate your runtime policy by using a centralized policy management system. The SOA Policy Solution provides a centralized policy administration, enforcement, and monitoring for runtime policies that enable traffic management for service level agreement enforcement, service mediation, and other customized policies. Policies can be defined once and reused among multiple services, thus enabling a standardized, consistent approach to a runtime policy that saves time and money for implementation and maintenance of non-functional requirements for the enterprise and assists with faster time to market. Business users can use the SOA Policy Solution to help create the service level agreements for their business services to deliver on promises for business performance. IT Architects can use the SOA Policy Solution to architect the policy solution patterns that standardize the runtime policy usage at their organization. Developers select specific policy patterns to implement the non-functional requirements that are associated with their projects. Operations groups provide information about operation needs and create standardized monitoring policy for operational action at run time.

Bread from the Lion's Mouth Suraiya Faroqhi,2015-03-01 The newly awakened interest in the lives of craftspeople in Turkey is highlighted in this collection, which uses archival documents to follow Ottoman artisans from the late 15th century to the beginning of the 20th. The authors examine historical changes in the lives of artisans, focusing on the craft organizations (or guilds) that underwent substantial changes over the centuries. The guilds transformed and eventually dissolved as they were increasingly co-opted by modernization and state-building projects, and by the movement of manufacturing to the countryside. In consequence by the 20th century, many artisans had to confront the forces of capitalism and world trade without significant protection, just as the Ottoman Empire was itself in the process of dissolution.
