What Works Now? Boaz, Annette, Davies, Huw, 2019-03-01 Building substantially on the earlier, landmark text, *What Works?* (Policy Press, 2000), this book brings together key thinkers and researchers to provide a contemporary review of the aspirations and realities of evidence-informed policy and practice. The text is clearly structured and provides sector by sector analysis of evidence use in policy-making and service delivery, considers some crosscutting themes, includes a section of international commentaries, and concludes by looking at lessons from the past and prospects for the future. This book will be of interest to a wide range of social science researchers, students and practitioners as well as those interested in supporting more evidence-informed policy and practice.

The Seal of Melchizedek: The Modern Rebirth of an Ancient Symbol Alan Rex Mitchell, 2015-03-18 An ancient symbol was suddenly used in the design of an entire temple. Renown scholar Hugh Nibley later identified it as the Seal of Melchizedek. Other scholars and bloggers started exploring the history and meanings of the symbol, which was later added to the Salt Lake City Temple. For the first time in one book, the modern story is uncovered. Learn why the Seal of Melchizedek is finding its way back into contemporary Christian culture, and why Latter-day Saints in particular find it so interesting.

UP-POPS Mark Hiner, 1991 Each of the ten different 'up-pop' mechanisms in this book is designed to fold away flat but to pop up into a geometric shape when released.

Cut and Fold Techniques for Pop-Up Designs Paul Jackson, 2014-02-17 Introducing techniques for making pop-ups from one sheet of card, the third title in this series on paper engineering takes folding techniques into the third dimension. Each chapter introduces a new technical idea and shows how that technique can be adapted in many different ways, or combined

with techniques from earlier chapters. These 3-D techniques can be incorporated into any design where typography and/or illustration are used, including mail-shots, personal publicity, invitations, business cards and greetings cards. With their emphasis on surface design over complex cutting, the pop-ups have an instant appeal for designers. Following the elegant, easy-to-follow style of Paul Jackson's other titles for Laurence King, *Cut and Fold Techniques for Pop-Up Designs* is an essential resource for marketing professionals and design students.
