The Cheap Handyman B.S. Harris,2021-05-04 Hilarious adventures in home renovations and repairs, from a real-life Red Green. Meet Brian Harris, a (mostly) retired, self-proclaimed jack of all trades with a knack for home improvements and inventive money-saving schemes. Armed with a soldering gun, his trusty 9-foot ladder, and of course the handyman's secret weapon—duct tape—Brian's projects start out as simple chores: trim a tree branch, stain the cedar siding on his home...but all too often they end in costly disaster. Sometimes he's trying to do the right thing, like the time he wrecked his pool while saving some baby ducks. Often, he channels his inner MacGyver: he once taped his hockey skate back together so he could finish his rec-league game, only to get suspended for falling on the referee when it broke (again). But usually, he's just trying to save a buck, like the time he accidentally destroyed an expensive car key fob because he wouldn't pay the (outrageous) \$10 fee to have the new battery professionally replaced. Filled with funny and entertaining true stories from the everyday life of an average guy just trying to save a few dollars, The Cheap Handyman is a tribute to anyone who has ever thought, "Sure! I can do that!"

High Quality Care for All Secretary of State for Health, 2008 This review incorporates the views and visions of 2,000 clinicians and other health and social care professionals from every NHS region in England, and has been developed in discussion with patients, carers and the general public. The changes proposed are locally-led, patient-centred and clinically driven. Chapter 2 identifies the challenges facing the NHS in the 21st century: ever higher expectations; demand driven by demographics as people live longer; health in an age of information and connectivity; the changing nature of disease; advances in treatment; a changing health workplace. Chapter 3 outlines the proposals to deliver high quality care for patients and the public, with an emphasis on helping people to stay healthy, empowering patients, providing the most effective treatments, and keeping patients as safe as possible in healthcare environments. The importance of quality in all aspects of the NHS is reinforced in chapter 4, and must be understood from the perspective of the patient's safety, experience in care received and the effectiveness of that care. Best practice will be widely promoted, with a central role for the National Institute for Health and Clinical Excellence (NICE) in expanding national standards. This will bring clarity to the high standards expected and quality performance will be measured and published. The review outlines the need to put frontline staff in control of this drive for quality (chapter 5), with greater freedom to use their expertise and skill and decision-making to find innovative ways to improve care for patients. Clinical and managerial leadership skills at the local level need further development, and all levels of staff will receive support through education and training (chapter 6). The review recommends the introduction of an NHS Constitution (chapter 7). The final chapter sets out the means of implementation.
