Flip the Script Oren Klaff,2019-08-27 This book will change the way you think about persuasion, and have you closing deals in no time. These days, it's just not enough to make a great pitch. Over decades of being marketed, pitched, sold (and lied) to, we've grown resistant to sales persuasion. The moment we feel pressured to buy, we pull away. And if we're told what to think, our defences go up. That's why Oren Klaff, bestselling author of Pitch Anything, has devised a new approach to persuasion based on a simple insight: everyone trusts their own ideas. Instead of pushing your idea on your buyer, guide them to discover it on their own and they will get excited about it. They'll buy in and feel good about the chance to work with you. In Flip the Script, Klaff breaks down this insight into a series of actionable steps. You will learn how to: *Achieve Status Alignment: Use a status tip-off, a strategically placed remark that identifies you as an insider who can relate to your client's concerns. *Close the Certainty Gap: Allay your buyer's fears about going into business with you by delivering a flash roll, proving your expertise in the domain. *Present Your Idea as Plain Vanilla: Don't overhype your product as a first-of-its-kind solution. The more you emphasise the familiar, reliable elements of your product, the easier you make it for your buyer to say yes. Packed with examples of the long-shot, often hilarious deals that Klaff has pulled off over the years, Flip the Script is the most entertaining, informative masterclass in dealmaking you'll find anywhere. It will transform your approach to pitching, leaving you fully prepared to raise money, seal deals and keep your cool in the toughest business situations.

Tech for Teacher Wellness Meredith Masar Boullion,2023-12-05 Get practical strategies for using technology to reclaim more personal space and time; connect with colleagues; and make positive changes in your life, in the classroom and on campus. Educators are feeling overwhelmed. The global pandemic brought a tsunami of edtech tools that had to be adopted suddenly under emergency circumstances, and the stress of that and other unprecedented challenges has caused many teachers to consider leaving the profession. Technology has often been portrayed as part of the problem, with many believing that the best way to pursue wellness is to unplug and avoid digital tools altogether. This book takes a different approach, showing that technology used wisely can promote wellness, rather than undermine it. Author and technology facilitator Meredith Masar Boullion presents research on the importance of caring for the emotional health of educators, then offers strategies for using technology to reduce educator stress and better provide for the social and emotional needs of school communities. The book: • Gives readers permission, and the tools needed, to set boundaries and get back personal time. • Demonstrates positive ways to use resources such as social media, professional learning networks (PLNs) and other collaborative tools to find, support and learn from fellow educators. • Provides suggestions for educators to share their own learnings to enhance the well-being and positivity of students, parents and colleagues. • Includes access to an online platform through which readers can connect and support one another's efforts to achieve greater well-being. With recommendations that are concrete and easy to implement, the book fosters collaboration and connection among readers, and encourages them to share their own techniques and resources for building a healthy, sustainable life and career.
