Mom Life: Perfection Pending Meredith Ethington, 2018-02-27 Out-parented at PTA? Out-liked on social media? Wondering how your best friend from high school's kids are always color-coordinated, angelic, and beaming from every photo, while your kids look more like feral monkeys? It's okay. Imperfection is the new perfection! Join Meredith Ethington, "one of the funniest parents on Facebook," according to Today.com, as she relates encouraging stories of real-mom life in her debut parenting humor book, *Mom Life: Perfection Pending*. Whether you're buried in piles of laundry, packing your 50th sack lunch for the week, or almost making it out the door in time for school, you'll laugh along with stories of what real-mom life is like—and realize that sometimes simply making it through the day is good enough. An uplifting yet real look at all that is expected of moms in the 21st century, *Mom Life: Perfection Pending* is so relatable you'll find yourself saying, "I guess I'm doing okay after all."

Reset Your Child's Brain Victoria L. Dunckley, MD, 2015-06-16 Increasing numbers of parents grapple with children who are acting out without obvious reason. Revved up and irritable, many of these children are diagnosed with ADHD, bipolar illness, autism, or other disorders but don't respond well to treatment. They are then medicated, often with poor results and unwanted side effects. Based on emerging scientific research and extensive clinical experience, integrative child psychiatrist Dr. Victoria Dunckley has pioneered a four-week program to treat the frequent underlying cause, Electronic Screen Syndrome (ESS). Dr. Dunckley has found that everyday use of interactive screen devices — such as computers, video games, smartphones, and tablets — can easily overstimulate a child's nervous system, triggering a variety of stubborn symptoms. In contrast, she's discovered that a strict, extended electronic fast single-handedly improves mood, focus, sleep, and behavior, regardless of the child's diagnosis. It also reduces the need for medication and renders other treatments more effective. Offered now in this book, this simple intervention can produce a life-changing shift in brain function and help your child get back on track — all without cost or medication. While no one in today's connected world can completely shun electronic stimuli, Dr. Dunckley provides hope for parents who feel that their child has been misdiagnosed or inappropriately medicated, by presenting an alternative explanation for their child's difficulties and a concrete plan for treating them.

Raising a Sensory Smart Child Lindsey Biel, Nancy Peske, 2009-08-25 A fully revised edition of the most comprehensive guide to sensory processing challenges At last, here are the insights and answers parents have been searching for. —Dr.

Temple Grandin For children with sensory difficulties—those who struggle process everyday sensations and exhibit unusual behaviors such as avoiding or seeking out touch, movement, sounds, and sights—this groundbreaking book is an invaluable resource. Sensory processing challenges affect all kinds of kind—from those with developmental delays, learning and attention issues, or autism spectrum disorder to those without any other issues. Now in its third edition, Raising a Sensory Smart Child is even more comprehensive and helpful than ever. Requirements by Collaboration Ellen Gottesdiener,2002-04-10 Requirements by Collaboration: Workshops for Defining Needs focuses on the human side of software development--how well we work with our customers and teammates. Experience shows that the quality and degree of participation, communication, respect, and trust among all the stakeholders in a project can strongly influence its success or failure. Ellen Gottesdiener points out that such qualities are especially important when defining user requirements and she shows in this book exactly what to do about that fact. Gottesdiener shows specifically how to plan and conduct requirements workshops. These carefully organized and facilitated meetings bring business managers, technical staff, customers, and users into a setting where, together, they can discover, evolve, validate, verify, and agree upon their product needs. Not only are their requirements more effectively defined through this collaboration, but the foundation is laid for good teamwork throughout the entire project. Other books focus on how to build the product right. Requirements by Collaboration focuses instead on what must come first--the right product to build.

Principles of the Business Rule Approach Ronald G. Ross,2003 The idea of Business Rules has been around for a while. Simply put, a Business Rule is a statement that defines or constrains some aspect of the business. In practice they are meant to reduce or eliminate the delays, waste, and frustration associated with the IT department having to be involved with almost every action affecting an organization's information systems. The advent of Web services has created renewed interest in them. There are now several well established rules-based products that have demonstrated the effectiveness of their use. But until now there has not been a definitive guide to Business Rules. Ron Ross, considered to be the father of Business Rules, will help organizations apply this powerful solution to their own computer system problems. This book is

intended to be the first book that anyone from an IT manager to a business manager will read to understand what Business Rules are, and what how they can be applied to their own situation.

Growing Up Social Gary Chapman,Arlene Pellicane,2014-08-25 Has Technology Taken Over Your Home? In this digital
age, children spend more time interacting with screens and less time playing outside, reading a book, or interacting with
family. Though technology has its benefits, it also has its harms. In Screen Kids Gary Chapman and Arlene Pellicane will
empower you with the tools you need to make positive changes. Through stories, science, and wisdom, you'll discover how to
take back your home from an overdependence on screens. Plus, you'll learn to teach the five A+ skills that every child needs
to master: affection, appreciation, anger management, apology, and attention. Learn how to: Protect and nurture your child's
growing brain Establish simple boundaries that make a huge difference Recognize the warning signs of gaming too much
Raise a child who won't gauge success through social media Teach your child to be safe online This newly revised edition
features the latest research and interactive assessments, so you can best confront the issues technology create in your home.
Now is the time to equip your child with a healthy relationship with screens and an even healthier relationship with others.

Parenting Matters National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences
and Education,Board on Children, Youth, and Families,Committee on Supporting the Parents of Young Children,2016-12-21
Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all
primary caregivers—are at the foundation of children's well- being and healthy development. From birth, children are
learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may
never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or

his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Shame-Proof Parenting Mercedes Samudio, 2017-04-18 How do you know if you're doing this parenting thing right? Create your Unique Parenting Manual so that you and your child can grow together.

Mobile Services for Toy Computing Patrick C. K. Hung, 2015-08-24 The goal of this book is to crystallize the emerging mobile computing technologies and trends by focusing on the most promising solutions in services computing. The book will provide clear proof that mobile technologies are playing an increasingly important and critical role in supporting toy computing. The goal of this book is to bring together academics and practitioners to describe the use and synergy between the above-mentioned technologies. This book is intended for researchers and students working in computer science and engineering, as well as toy industry technology providers, having particular interests in mobile services.

Early Childhood Environment Rating Scale (ECERS-3) Thelma Harms, Richard M. Clifford, Debby Cryer, 2014-11-01 The long-anticipated new version of the internationally recognized Early Childhood Environment Rating Scale®, ECERS-3, focuses on the full range of needs of preschool- and kindergarten-aged children. This widely used, comprehensive assessment tool measures both environmental provisions and teacher-child interactions that affect the broad developmental needs of young children, including: Cognitive Social-emotional Physical Health and safety ECERS-3 also includes additional Items assessing developmentally appropriate literacy and math activities. Designed for preschool, kindergarten, and child care

classrooms serving children 3 through 5 years of age, ECERS-3: Provides a smooth transition for those already using ECERS-R. Emphasizes the role of the teacher in creating an environment conducive to developmental gains. Is designed to predict child outcomes more accurately and with greater precision. Provides a stronger method of distinguishing between good and truly excellent programs. Offers a complete training program with ongoing support available at the Environment Rating Scales Institute (ERSI) website (www.ersi.info). ECERS-3 is appropriate for state and district-wide QRIS and continuous improvement; program evaluation by directors and supervisors; teacher self-evaluation; monitoring by agency staff; and teacher education. The established reliability and long term evidence of validity of the ERS family of instruments make this new version of ECERS particularly useful for RTTT-ELC accountability and research. Suitable for use in inclusive and culturally diverse programs, ECERS-3 subscales evaluate: Space and Furnishings Personal Care Routines Language and Literacy Learning Activities Interaction Program Structure

Confident Parents, Confident Kids Jennifer S. Miller, 2019-11-05 Confident Parents, Confident Kids lays out an approach for helping parents—and the kids they love—hone their emotional intelligence so that they can make wise choices, connect and communicate well with others (even when patience is thin), and become socially conscious and confident human beings. How do we raise a happy, confident kid? And how can we be confident that our parenting is preparing our child for success? Our confidence develops from understanding and having a mastery over our emotions (aka emotional intelligence)—and helping our children do the same. Like learning to play a musical instrument, we can fine-tune our ability to skillfully react to those crazy, wonderful, big feelings that naturally arise from our child's constant growth and changes, moving from chaos to harmony. We want our children to trust that they can conquer any challenge with hard work and persistence; that they can love boundlessly; that they will find their unique sense of purpose; and they will act wisely in a complex world. This book shows you how. With author and educator Jennifer Miller as your supportive guide, you'll learn: the lies we've been told about emotions, how they shape our choices, and how we can reshape our parenting decisions in better alignment with our deepest values. how to identify the temperaments your child was born with so you can support those tendencies rather than fight them. how to align your biggest hopes and dreams for your kids with specific skills that can be practiced, along with new research to support those powerful connections. about each age and stage your child goes through and the range of learning opportunities available. how to identify and manage those big emotions (that only the parenting process can bring out in us!) and how to model emotional intelligence for your children. how to deal with the emotions and influences of your choir—the many outside individuals and communities who directly impact your child's life, including school, the digital world, extended family, neighbors, and friends. Raising confident, centered, happy kids—while feeling the same way about yourself—is possible with Confident Parents, Confident Kids.

Screenwriter's Compass Guy Gallo,2012-11-12 Ever watch a movie, and despite great production value, fantastic action sequences, a great cast, etc, you come away thinking-I just didn't buy it. Chances are it was because you didn't care about the characters. Screenwriter's Compass presents a new way of approaching screenwriting, examining how effective screen storytelling must be grounded in the vivid imagining and presentation of character. Screenwriter's Compass will not offer formulas to follow but instead will give you the tools needed to chart your own path to screenwriting success. It details useful ways of thinking about writing, as well as practical ideas and concepts to help you discover the unique geography of your own imagination and navigate the problems posed by the struggle to express vision, agenda, and story. You'll learn how to root your writing in motivation and voice, to create screenplays that seduce and make your reader lean forward, and, most importantly, identify with your characters.
