A Kids Book about White Privilege Ben Sand, 2020-11-06 We've neglected the topic of white privilege for too long. This book directly addresses the myth that all children start from the same spot. White children growing up today can see their privilege and learn how to use it for good. And maybe-just maybe-learn how to give it up.

The White Ally Toolkit Workbook David Campt, 2018-12-03 How does a white person who aspires to be an ally against racism talk to their friends and family who are in denial about racism against people of color? The White Ally Toolkit Workbook gives people concrete guidance about how to respond a wide variety of statements that racism-denying white folks make everyday. In addition, the workbook presents a sequenced curriculum that an ally can use if they want to purposefully change someone in the circle of influence as well as reflection and self-assessment tools that will help allies see themselves more clearly. These tools help allies refine their interactions with others so they can move the needle on the large-scale

racism denial among the whites about American's most pressing and long-standing problem.

The Colorblind Screen Sarah E. Turner, Sarah Nilsen, 2014 The election of President Barack Obama signaled for many the realization of a post-racial America, a nation in which racism was no longer a defining social, cultural, and political issue. While many Americans espouse a colorblind racial ideology and publicly endorse the broad goals of integration and equal treatment without regard to race, in actuality this attitude serves to reify and legitimize racism and protects racial privileges by denying and minimizing the effects of systematic and institutionalized racism. In *The Colorblind Screen*, the contributors examine television's role as the major discursive medium in the articulation and contestation of racialized identities in the United States. While the dominant mode of televisual racialization has shifted to a colorblind ideology that foregrounds racial differences in order to celebrate multicultural assimilation, the volume investigates how this practice denies the significant social, economic, and political realities and inequalities that continue to define race relations today. Focusing on such iconic figures as President Obama, LeBron James, and Oprah Winfrey, many chapters examine the ways in which race is read by television audiences and fans. Other essays focus on how visual constructions of race in dramas like *24*, *A Sleeper Cell*, and *The Wanted* continue to conflate Arab and Muslim identities in post-9/11 television. The volume offers an important intervention in the study of the televisual representation of race, engaging with multiple aspects of the mythologies developing around notions of a post-racial America and the duplicitous discursive rationale offered by the ideology of colorblindness.

Revisiting The Great White North? Darren E. Lund, 2015-01-20 Returning seven years later to their original pieces from this landmark book, over 20 leading scholars and activists revisit and reframe their rich contributions to a burgeoning scholarship on Whiteness. With new reflective writings for each chapter, and valuable sections on relevant readings and resources, this volume refreshes and enhances the first text to pay critical and sustained attention to Whiteness in education, with implications far beyond national borders. Contributors include George Sefa Dei, Tracey Lindberg, Carl James, Cynthia Levine-Rasky, and the late Patrick Solomon. Courageously examining diverse perspectives, contexts, and institutional practices, contributors to this volume dismantle the underpinnings of inequitable power relations, privilege, and marginalization. The book's relevance extends to those in a range of settings, with abundant and poignant lessons for enhancing and understanding transformative social justice work in education. *Revisiting The Great White North?* offers terrific grist for examining the persistence of Whiteness even as it shape-shifts. Chapters are comprehensive, theoretically rich, and anchored in personal experience. Authors' reflections on the seven years since publication of the first edition of this book complexify how we understand Whiteness, while simultaneously driving home the need not only to grapple with it, but to work against it. Christine Sleeter, Professor Emerita, California State University Monterey Bay Our understanding of racial inequities in education will be impoverished unless we look deeply at White privilege, its variation in different contexts, and

resistances to change. Such is the call in this important book by Lund, Carr, and colleagues, whose analyses within Canadian contexts, framed and re-framed for this captivating revised edition, will be useful to educators and scholars around the world. Read this book today. Kevin Kumashiro, Dean, School of Education, University of San Francisco; President, National Association for Multicultural Education Darren Lund and Paul Carr have given the contributors to their original 2007 text the opportunity to revisit, rethink, reconceptualize, and reframe their earlier work. The result is an interesting, invigorating, and unsettling group of chapters that challenge readers to also revisit and rethink their own ideas about Whiteness, privilege, and power Teachers, administrators, policymakers, and researchers will all benefit from this critical work. Sonia Nieto, Professor Emerita, Language, Literacy, and Culture College of Education, University of Massachusetts, Amherst Lund and Carr bring together a superb collection of authors who collectively challenge readers to go beyond liberal platitudes about race ... until educators confront the political, social and economic consequences of inequitably distributed privilege, the path towards equality and freedom will remain elusive. By immersing us in the discourse of Whiteness, the essays in this book illuminate that very path. Joel Westheimer, University Research Chair & Professor, Faculty of Education, University of Ottawa

White privilege Bhopal, Kalwant,2018-04-06 Why and how do those from black and minority ethnic communities continue to be marginalised? Despite claims that we now live in a post-racial society, race continues to disadvantage those from black and minority ethnic backgrounds. Kalwant Bhopal explores how neoliberal policy making has increased rather than decreased discrimination faced by those from non-white backgrounds. She also shows how certain types of whiteness are not privileged; Gypsies and Travellers, for example, remain marginalised and disadvantaged in society. Drawing on topical debates and supported by empirical data, this important book examines the impact of race on wider issues of inequality and difference in society.

Articulating Design Decisions Tom Greever,2015-09-25 Annotation Every designer has had to justify designs to non-designers, yet most lack the ability to explain themselves in a way that is compelling and fosters agreement. The ability to effectively articulate design decisions is critical to the success of a project, because the most articulate person often wins. This practical book provides principles, tactics and actionable methods for talking about designs with executives, managers, developers, marketers and other stakeholders who have influence over the project with the goal of winning them over and creating the best user experience.

Dying While Black Vernellia Randall,2006 According to Randall, Blacks suffer from the generational effect of a slave health deficit that was not relieved during the reconstruction period (1865-1870), the Jim Crow Era (1870-1965), the Affirmative Action Era (1965-1980), or the Racial Entrenchment Era (1980 to present). Repairing the health of Blacks will require a multi-facet long term legal and financial commitment.

White Richard Dyer,2013-10-18 White people are not literally or symbolically white, yet they are called white. What does this mean? In Western media, whites take up the position of ordinariness, not a particular race, just the human race. How is this achieved? White takes these questions as starting points for an examination of the representation of whiteness by whites in Western visual culture. Dyer places this representation within the contexts of Christianity, 'race' and colonialism. In a series of absorbing case studies, he shows the construction of whiteness in the technology of photography and film as part of a wider 'culture of light', discusses heroic white masculinity in muscle-man action cinema, from Tarzan and Hercules to Conan and Rambo; analyses the stifling role of white women in end-of-empire fictions like *The Jewel in the Crown* and traces the associations of whiteness with death in *Falling Down*, horror movies and cult dystopian films such as *Blade Runner* and the *Aliens* trilogy.

When the Other is Me Emma LaRocque,2011-03-10 In this long-awaited book from one of the most recognized and respected scholars in Native Studies today, Emma LaRocque presents a powerful interdisciplinary study of the Native literary response to racist writing in the Canadian historical and literary record from 1850 to 1990. In *When the Other is Me*, LaRocque brings a metacritical approach to Native writing, situating it as resistance literature within and outside the postcolonial intellectual context. She outlines the overwhelming evidence of dehumanization in Canadian historical and literary writing, its effects on both popular culture and Canadian intellectual development, and Native and non-Native intellectual responses to it in light of the interlayered mix of romanticism, exaggeration of Native difference, and the continuing problem of internalization that challenges our understanding of the colonizer/colonized relationship.

High Yella Steve Majors,2021-10-15 They called him “pale faced or mixed race.” They called him “light, bright, almost white.” But most of the time his family called him “high yella.” Steve Majors was the white passing, youngest son growing up in an all-Black family that struggled with poverty, abuse, and generational trauma. *High Yella* is the poignant account of how he tried to leave his troubled childhood and family behind to create a new identity, only to discover he ultimately needed to return home to truly find himself. And after he and his husband adopt two Black daughters, he must set them on their own path to finding their place in the world by understanding the importance of where they come from. In his remarkable and moving memoir, Majors gathers the shards of a broken past to piece together a portrait of a man on an extraordinary journey toward Blackness, queerness, and parenthood. *High Yella* delivers its hard-won lessons on love, life, and family with exceptional grace.

Against White Feminism Rafia Zakaria, 2021-09-09 Personal, provocative and powerfully persuasive - an essential guide to what white feminism is, why it matters, and how we can put an end to it 'Thoughtful and provocative... It is a must-read' Roxane Gay 'A book to make you stop and think' Mishal Husain 'This book is going to light fires everywhere, so if you are prone to combust, get right the hell out of the way' Lit Hub Most of us believe that feminism is a force for good. In the past 200 years, it has paved the way for women to advance economically, increasing their safety and their power in society, and advocating for their needs and experiences. But not for all women. If you are poor, if you are an immigrant to the West or

(even worse) don't live here at all, and above all if your skin is not white, the door to mainstream feminism has been shut against you from day one. This is not oversight or an accident. It is an active and sustained strategy to advance white women at the expense of everyone else. And what makes this strategy especially dangerous - and especially effective - is that most white people have no idea they are participating in it. Attorney and activist Rafia Zakaria shines a spotlight on this urgent issue, revealing the fingerprints of white supremacy all over the feminist movement: from early suffragette campaigns right up to the divided and profoundly unequal world we inherit today. And she issues a powerful call to every reader to join her in building a new kind of feminism, lighting the path to emancipation for all.
